Viewer Service Dept.
C-SPAN

Friends:

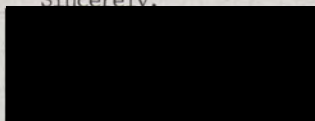

Just a few lines to say that I approve of the changes made in recent weeks on the WASHINGTON JOURNAL program. I like the variety of ways you list the phone numbers, like the fact that we don't have two talking heads from Congress saying black isn't white, etc. One member of Congress at a time I feel is working well, giving the member the ability to give fuller and better answers, and still being able to say, "this is my point of view", etc. The longer time slot given other experts or points of view, or members of the press, has also worked well. As your on-air people usually say, we have a schedule that includes so and so on this day that will give others views on this or that subject.

I also enjoy very much when you are able to pick up local TV news programs on election nite for the state primaries, or other votes. Enjoyed the recent California primary covers. (Same is true when you picked up election coverage from the UK and Canada in recent times.)

Congress often says it will go "out" early in election years, like 1998, and it seldom happens, but if it does, maybe you can do some Booknotes re-runs for us.

I get C-SPAN I & II on Time Warner Cable in Oshkosh.

Sincerely,

0.3)

OVER

on air
Enjoyed the tour of Suite #650 given recently. I like to see that so I have a feeling of a place.....was interesting to see the small studio used for the AM show, etc.

I'm a stamp collector, and I don't remember that you have visited the fairly new Postal Museum, part of the Smithsonian, in the old City PO, next to the train station, etc. They have nice public exhibits, but the items in the vault and others items not on regular public exhibit are real treasures. I'd like to see them used the way your get good cooperatin for Library of Congress exhibits, etc.
