I'd just like to have you read  
this, since I can't get you on the  
phone - ON THE AIR.

You people (and all newspeople) must  
be really getting your jollies, with  
this story on the President.  
Even if it were true, it should never  
have been brought to light, until he  
dies - no other President has gone  
through what he has, and all become  
ignorant people who call themselves  
"reporters". Must to do all they can to  
keep the Repub. & far-right get him  
out of office. No matter that

he does a great job as President!!  
Just disgrace him + Cause our  
Country to be a laughing stock  
All over the world. —  
You all are sick! Just  
going mangers!! Worse than  
the Enquirer — by far —  
Crawling all over for 500  
like elephants in a giant bag.  
People in the South being for another.  
They kiss one another — They  
show they care about people —  
Do you not think Maybe that's  
what the Pres. did? And for people  
saying he lied about Jennifer Flowers  
I don't think so. He went on 60 min.  
and admitted he'd caused hurt in  
his marriage. A MAN Won't  
screw a woman then tell everybody  
about it. (Kiss + tell) So get real —  
— you all make me puke!
