Dear Mr. Lamb:

May I make two suggestions?

I am 87 years old and a
devotee of C-SPAN and your
presidential series.

For those of us who can
no longer see too well, could
you please have someone read the
list of happenings and accomplishments
during a president's lifetime when
the list is being shown on the
screen for us to read.

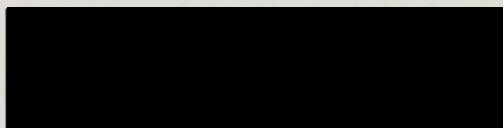

And secondly, can anything
be done about the volume of

S. Amstrup

background music that
accompanies some programs.
For example, in the prologue
to Wm. Harrison the loudness
of the music made it hard
to hear the speech.

Thank you so much for
giving us pleasure, mental
stimulation and information.

Most sincerely,
