

Sep 18, 1993

Gentlemen:

I think you are harming the chances of improved race relations by show^{ing} programs like "The Congressional Black Caucus".

For some reason all of them seem to think they must mount a diatribe against "Whites" and they all seem to think they must adopt a militant and pugnacious attitude. They are constantly saying things about whites that whites would never be able to get away with saying the same about them.
