Dear C-Span,

I'm so angry with you and your programming right now.

Last Friday, May 8th, after 12:30^(pm) EDT, I telephoned your Programming Dept., and asked when you ^{were} showing Ross Perot's speech at the American Newspaper Publishers Assn (ANPA).

I was told by the lady that it would be reshowed on Sunday, May 10th @ 9:35 pm PST, once!!

First of all - That important Perot speech was not shown. Instead, you broadcasted Mr. Perot's addressment to the Univ. of Oklahoma.

I am extremely angry and extremely disappointed by this mistake.

I wanted badly to see that speech and told others to view your channel for that express purpose!

Secondly, I'd like to know why certain programs are shown 2, 3, 4 times during a weekend and others, like this Perot speech, are not rebroadcasted even once. Clinton also addressed the ANPA, and between C-Span I and II, it was shown at least twice.

I never thought I'd call C-Span bias, but after this weekend, and especially tonight, I now have my doubt.

The Perot speech may not have been important to your programmer, but it was to a lot of your viewers. You really let me down C-Span. I just hope it doesn't happen again and you give equal broadcast time to Perot that you now give to Clinton, Bush and both Democratic & Republican Nat'l. Committies!!

I would like a response from
you regarding this matter. Also,
can copies of the not shown
Perot speech be purchased ???
