

Dear Sirs,

In this election year. with Democrats talking about family leave time, a health care plan for America etc, and Republicans saying how well off we are (Marilyn Zvail, Sept 9, No. Carolina) why don't you (or pass idea over to another Network) compare a day in lives of American out of work with a German in same circumstance. Possibly blue collar & white collar also. Comparison in some class of both should be in some newscast. Many Americans have never had the chance to live in another land. Thanks
