Dear C-Span: Hooray For C-Span.

Thanks for coverage of
The whole Political scene.

It is the kind of education Americans
want to make informed choices.

I can't afford to call, but
I do have a few questions to ask.

No. I I hear so much about
the 20 million new jobs. Fine - but
where are the numbers of millions
laid off in the 80's?

No. II. I hear the President
espousing compromise - How does that
square with his Veto of 15 out of 16
Bills. What a waste of time money and
work for 535 men in the legislative
branches of Govt.

No. III. When is the Congress
and Senate going to assert their
war power making duties. The
U.S. People are tired of getting mixed
up in civil wars around the world.

No. IV I believe throwing out
experienced legislators is wrong. Watching
new young members in Congress & the
Senate going through their paces without
knowledge of all the rules & procedures
leaves them vulnerable to the bureaucratic
system & influenced pro or con by the
Administration in power.

Mr. Paul, MN.

over Thanks again for C-Span.

Could C-Span institute a
50 cent call in Yes No - on
important issues - Letting
main stream americans register
an approval or disapproval
of goals and directions the
govt is going?
