C Span
of Brian Lomk

Mr Lomk

I write this letter to you personally after 7 years of viewing C-Span. It has made some real different changes since I began too view C-Span.

C-Span has become more of a talk forum program eliminating the public input. Yes you still have viewer call in programs, but viewer input has decreased by all your re run clips - speeches - forums - bias reporters, break time, Representatives

Professor - Womans issues and committees. I am so sick of seeing the abortion issue. It isn't

your job to
promote abortion. That
is a personal issue and
should be left out of the
news media in all forms.

You drove the Clarence
Thomas hearings in the ground
and that to me told me you
try to force your ideas on
the public.

The public, not all by no
means - are easily persuaded
by seeing any thing over and
over and over. I am not
because I have informed and
educated myself too know
when the media shows
these strips.

(bias)

You have shown your
strips on C-Span. Everyone
who moderates the program,
have made there bias-
laid and clear.

The one item that turned

me up side down was
the gag rule that your
station and also reporters
and news media put on
the Character issue. You
gaged callers when people
wanted the questions
answered. Lew Heatham
Hathy - Susan Swaine -
and you and Bruce. The
news papers wouldn't print
it - and the other programs
refused too investigate it
After A.B.C broke the story
of his draft record. Your
program refused too let
the public get there concerns
answered. If Don Quail
had that issue against him
and every reporter tried too
squash any discussion
on the draft problem, people
would be climbing the
walls. 4 years your

program belittled
Vice President Dan Quayle
I never heard any thing
good spoke about him.
Mrs Quayle went threw
the most disrespect as
the wife of the Vice President.
None of your Moderators
respected Our President
by address him by his tittle.
That is disrespectful. It's
unpatriotic. Our Military
fought for the freedom
for you and your Cable
program too be free too
present your voice.

I will not support your
program any more. The
American people will get
fed up with your bias.
It's very sad too see
you become uninteresting.
