The People who called your show 11/20/98 not a one was watching the hearings I watched, Kent Starr became angry when Mr. Kendall used the word "held Monica" Well if you keep a witness for hrs in a room without allowing her a lawyer and threatening her with 27 years in Prison if she doesn't do what you want that's being "held." Second when he was asked if he was informed of Clinton's sex affair before he went to Janet Reno asked if he was informed in 1997 on his answer was the old cover up trick "I can't recall" We with any common sense know he was informed, when he was showed the Post Headline that he had outside investigators looking into Clinton's Personal life in 1995 spent 5 million dollars on these investigators and refused to tell what they were investigating and then immediately after the hearing has Henry Hyde deal the Report on what they were

P.S. There is no doubt in my mind
Mr Emmick was behind the first
tappings of Monica which were illegal.

~~He was the one who was behind the first~~

investigating that smells like a
Coverup. The idea for having Linda
Tripp tape Monica was most likely
that of Mr. Emmick one of Ken Starr's
lead Prosecutors, this man should
be removed by the Democrats. He
had a woman wear a wire on tape
an uncooperative witness in Calif about
her sex life she admitted to this
person she had a sex affair. Then Mr.
Emmick called her in asked her the
question did you ever have a sex affair
she denied it, he then threatened her
with imprisonment for perjury if
she didn't cooperate, she didn't. But
the Judge threw his case out of court
stating it was one of the most
unethical things he ever heard.
Do people ever read in this nation."
