This is the best program I've ever heard on Wash. Jr. Jim Traficant & J.D. Haworth are 2 of the most intelligent & articulate Repre. who really care about us the tax payers. Why don't you have people like them on more often? These 2 men have lots of courage to tell the truth.

I'm sick of these people (that you have on at the beginning of the program) who really don't say anything of substance. They seem to agree with everyone who calls in which is ridiculous.

Many times, I know more of what is going on than you people do. Or if you have, you're not saying it. You seem to cater to the common denominator people who keep in that's really the truth.
