

I'm writing as a concerned watcher of C-span. I purchased cable T.V. because I was sick + tired of the net work news. When I started your channel I saw Republicans, Independents and Democrats telling their side of every issue. Libertarians + more. I got to really know what each presidential candidate wanted to do for America. I watched each rally of President Bush, Clinton + Perot to learn and see them uncensored. Why have you changed your format of just as the public was enjoying your live news without talking heads.

Could you please keep C-Span the way it was? I'm not interested in the News medias careers I would just like to keep a working knowledge of the congress, Senate and what the first family are doing to make America work.

I'm not interested in the selling of newsweeklys or papers. But I have been able to find the motives of some reports. Please leave C-Span as a uncensored news program so we can make our own decisions on our government. Thank You
