"STATES OF THE NATION '85" TAKES C-SPAN WEST
TO FIVE STATE CAPITALS

WASHINGTON, D.C.-- C-SPAN heeds the call to "go west," as the public affairs cable network heads out of Washington next month to continue its "States of the Nation '85" program theme.

C-SPAN program director Carrie Collins has announced that five state capitals will be the sites of original C-SPAN programming throughout the months of August and September: Salt Lake City, UT, August 9-12; Cheyenne, WY, August 15-16; Jefferson City, MO, August 21-23; Nashville, TN, September 11-14; and Indianapolis, IN, September 23-27. The first three stops will be sponsored by Tele-Communications, Inc., the nation's largest cable company. The two September stops will include coverage of media-related conferences, the Radio TV News Directors Association's meeting in Nashville, and the Great Lakes Cable Show, in Indianapolis. American Television and Communications will underwrite the Indianapolis visit.

Ms. Collins said that several other state capitals will be added to the tour in the fall.

A crew of six will visit each of the first three stops along with C-SPAN's portable satellite uplink. Call-in programs featuring political journalists and local politicians will be conducted via satellite with the C-SPAN host taking viewer calls from the network's Washington studios. In addition to talking politics with its guests, C-SPAN's cameras will capture some of the local flavor through short video vignettes.

Through this "States of the Nation '85" program theme, C-SPAN has focused on local government, state leaders and issues of concern to the individual states. The network's cross-country travels began in June with a visit to Anchorage, AK for the U.S. Conference of Mayors. And, from August 3-6th, the cable network will be on location in Boise, ID, for the National Governors' Association summer meeting. C-SPAN's "States of the Nation" programming theme began in February with a series of Washington, D.C. events that related to state/federal issues.

Nationwide, nearly 2,000 cable system affiliates -- including systems in 49 of the 50 state capitals -- make C-SPAN's public affairs programming available to 21.5 million American households.
