Your programs are probably
the most constructive and educational
of anything on TV **FEB**

What I like particularly **FANCY** is
that you provide the information
but you don't editorialize it and
permit us to make up our own
minds instead of having it spoon
fed to us, interpreted, explained and
presented as though we could not think

Your hosts and hostesses are
fair, impartial and knowledgeable.

I especially liked your Senate
Ethics hearings but I had to give up
on the droning of all the would-be
orators in Congress

Sincerely,
[REDACTED]
