

We need to direct our attention to our own infrastructure
Mr. Obeyes ^{+ much, much more!} Feb. 22, 1992

Deeply appreciate your care
and perception regards Israel loan.

Would that it were "gainst the law"
to supply arms to other countries — or
loans which lead to acquisition or
war — Would we could all put our
resources toward peace and brotherhood
& "healing the wounds" — We have to work
in that direction. It's already late!
