Washington, D.C. 20001

It really doesn't take 5000 words to tell you what I think of C Span. Every person Fourteen Years or older in America should be able to watch your "Live" coverage of Our Government in Action at least four hours per week. If this were possible we would see a tremendous surge at our Polling Places throught the land in the next Ten Years, also we would see our good Ole Letter Writing Campaigns start up again letting our Representatives know how we feel about the Running of this Great Country.

Thank You,

Just One Senior Citizen who  
who is fed up with with Voting a Politician into Our Government, and never  
hearing from them again.
