Dear Sir:

I caught only a portion of your CSpan sim-u-cast on the above date. At the last of your show, I heard you mention Bo Gritz! That means you must have been talking about POW/MIA issues and probable government coverups. I would sure like to be able to hear your segment on the above subject. I was hoping that it would have been rebroadcast that same evening, but that was not to be in our area.

Is there any way I can get a tape of your POW/MIA radio interview segments? I hope that we could see more of this sort of thing on TV since there are few talk radio shows in our listening area. The approach of listening and watching it at the same time was very interesting. I also enjoyed being able to listen to the comments made between segments.

I only hope that we will see more of this sort of programming in the future.

Sincerely,

[Redacted Signature]
