I watch C-Span because:

It is so refreshingly different! C-Span is a most enjoyable pastime for all, especially for those who are unable to pursue their daily tasks, and for the elderly. It encourages us to get involved in the process of our government and to become acquainted with people in all walks of life.

C-Span intrigues me with it's persistent out-reach to all people and it's dogged pursuance of the electoral process, which is at this time of paramount importance and consuming interest to our people.

Thus it broadens the scope of things and motivates those of us who are apathetic, to bestir ourselves and lend our support to the almost miraculous power emanating from each person, who casts a ballot. An act, which at times, can alter the outcome of an election--and give us the satisfaction of having done our duty as a citizen.

I want to commend and thank C-Span for this wonderful and outstanding service. At this point, I feel myself at a loss of words to do justice to the excellency and talent of the people who are a part of this broadcast. And in closing, I want to stress the importance of it all, especially when the destructive nuclear trend has our very existence in jeopardy, so vote for peace and God Bless you all!
