Gentlemen:

I am writing to obtain information about one of your programs that was aired on Labor Day evening. During a routine "flip through the channels", I found this program concerning the changes in Russia, its economy, and its management problems. My problem is simply that I missed most of this program and have not been able to track down even its name. My only clue I can offer is that one of the speakers was Judy Shelton, a Research Fellow from the Hoover Institution.

I would like to purchase a transcript of this program if it is available. I look forward to hearing from you.

Sincerely,

[REDACTED]
