

Praise Sept 6, 1994

Dear Brian,

Keep up the good work - hard to believe C-SPAN is in existence 13 years. I listened during Iran-contra's hearings. Since I'm now semi-retired, I've listened a great deal for 2 years now - before '92 election -

I listened to accumulated tapes - & a radio address dated 7-17-93 (Clinton) -

- ① why not date all programs - I always listen on tape 8:00 AM programs - if listen later the date is there (I just listened to VA DEBATE - NOT DULL!)
- ② Being accused of bias - I'm so glad to get unedited speeches I've not worried - but hard for you & Rush Limbaugh too - have to listen to both over time - 3 months or so - Also, I understand there are 3 times as many liberals as conservatives ↑ & makes it hard to balance out - (median)
- ③ Today at 8 AM, you were with Cal Thomas & Mr. Peter (Washington Monthly) - I never thought about the Falwell tapes on C-SPAN. You asked why Falwell felt so strongly. I've only listened to excerpts on Falwell's weekly program. They are as authentic as questions about Foster's death. (Why no exit bullet - Why no X-Rays taken -

Why no tests to determine definitely who the 3 blond hairs belong to - why not verify for sure his 18 yr. old daughter. Also his body covered with fiber hairs - no tests taken to determine where they came from -)

Out of these hearings that are ridiculed came at least 3 resignations, At the time Nixon in hospital - Hillary gave a "spectacular" press conference - nothing taken from his office,

At the hearings we learned she had ~~Whitewater~~ tapes at her personal residence 5 days - + 6 months after Foster died before we even knew they existed!

TASK Force (Health) tapes shredded!?!  
These Falwell tapes are important, I think they should be heard,

Tonya Harding wanted to win the gold 20 years - Bill Clinton wanted to be Pres since 16 when he met JFK. How you win the gold is as important as winning -

④ I hope you get your "first <sup>Tim Russert</sup> amendment rights back" (CNBC 9-5)

So do we - on the 2nd amendment - we're a relative quiet town about abortion clinic. A temporary buffer zone set up - a really nice lady angrily offering pamphlets on public property (offering care for both mother & unborn child) is now sitting in jail. We need our 1st Amendment Rights back too - Remember Rosa Parks. Thanks
