

April 8, 1984

I watch C Span because it is the most interesting program on all of the 32 channels I have on Cable TV. Though watching the House in session can be very tedious at times because of the slowness in pace, I find the other programming to be exceptionally good. To hear Kissinger, or <sup>28,4</sup> Bresinski, articulate the policy for which they believe in only enhances my understanding of the issues which are to say the least, very, very complex. To see all of the various Committee in action and to be able to hear some of our greatest minds explain their thinking can only enhance our system. There is much wrong with the way our system works, but the light that you put on all issues, all ideas, pro and con, is a service for which I believe no one can object too.

When I hear of the high ratings soap operas get during the day or evening, I just find it impossible to believe that people will spend their time watching make believe nonsense when the real events that are being shaped in the country and the world are there to be seen and examined at the same time.

The only problem I have is that there isn't any schedule available in the paper or in the Cable magazine. Many times I have found

myself wishing to video tape your program so I could show it to some friends, but not knowing when they repeat, makes it impossible. I thank you for your service and hope to see many, many more of your future programs.
