Dear sirs,

I'll appreciate to receive any available material you may have related to your video-document on: "Politics of Northern Ireland".

I'm doing research on "self-determination" in the new "post cold war" world and if by any chance you have already treated other movements as well, please consider my interest in them too.

Your C-SPAN service is of great interest for those of us dealing with research in International Politics. The first time I watch your service I came across with a symposium of a so called CATO INSTITUTE which I am also interested in contacting. In that occasion the subject was the process of change in Eastern Europe. Could you please send me its address too.

Thanks a lot for your help to improve world communications and understanding.

Sincerely yours

Research Officer
