Dear Brian Lamb,

Maple Grove, MN 55311

Your appearance on the panel for Congressional hearings on digital T.V. inspires me to write this letter.

If it were not for the existence of C-SPAN and Bravo on my cable service, I would discontinue my cable service, in a heartbeat. Except for these 2 cable channels, cable T.V. is, for me, a veritable wasteland.

Living in a far-western suburb of Mpls., I am forced to carry cable, simply to get any local broadcast channel.

Regarding the C-SPAN network in my life's daily activities, I share the following opinions/comments:

- ① I don't watch C-SPAN, I listen, & talk to C-SPAN. So I don't "give a rip" if I can't see any puck.
- ② Don't give me any digital T.V.
- ③ I have repeatedly asked for C-SPAN-2, and  
O. must carry (over)

would rejoice in the "ABOUT BOOKS" programs, but "Medea One" Cable Company does not honor this monthly request.

- ④ I would love to be able to receive a C-SPAN network that covers European politics and literature/publishing.
- ⑤ I truly appreciate and applaud your efforts in providing such high quality broadcasting! Bless you, Brian Lamb!

Most Sincerely,

P.S. Thank you for the many enlightening hours I've spent with Booknotes and "Booknotes"!
