Dear C. Span Crew,

In regard to the abortion issue in which guests appeared.

The anti abortion advocates would be credible if they had half the concern about human beings alive and here as the two weeks old fetus.

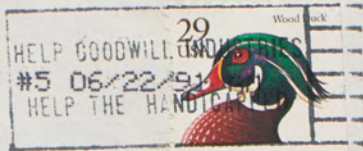

These same people were the most ardent supporters of Reagan who made disdain for the homeless fashionable.

These same people would be the first to demand the hanging of that vagrant 16 year old accused of a crime. These people would even enjoy watching the event and bring their bible toting preacher with them.

In a perfect world there would be no abortions, no homeless, no hangings, no meanness,
