

This is my protest letter to C-SPAN Officials that carried the Isle Of Palms, SC, Town Meeting on last Thursday. As they were discussing items of lifeguards to watering trees; the US House of Representatives was finishing up the Pros & Cons of Clinton's Tax Increase Plan. As I was preparing to view - as I had most of the day - the nearing minutes to their important vote; the IOP meeting cut off the most important coverage that will have a long time impact, to us all. I pay Storer Cable for certain program coverages, NOT for your coverage of this town meeting. It would be in C-SPAN best community interest to prioritize conflicting telecasts. I have recommended to IOP officials this same procedure & to use radio services for their meetings.

CHARLESTON, SC 29414

Wren Building, College of William & Mary
