MAR 28 AMCT

986-90 Denver, CO.

Gentlemen

I listened to your program the first time  
2/25/90 11AM and I can't imagine  
wasting my time on it again.

The people on the panel didn't  
seem to be well informed on anything  
the woman was making faces as though  
she was smelling or tasting something  
very unpleasant.

The incoming calls were not  
answered to my satisfaction & I'm  
sure not to the satisfaction of the Caller  
some were ignored & just gone on to the  
next call which was again not ~~at~~  
answered.

None of them appeared to me to be  
either Professional or knowledgeable on  
anything.

One thing I would like to know  
that was asked & not answered really  
was - why isn't more attention paid  
to what is happening in the U.S. a

for instance, The Berlin wall - interesting news but Dan Rather - among others spent his whole program practically not only one day but every day for a week every program local & national was what was happening in Germany - why doesn't the media spend as much time & effort on the Savings & Loan scandal (Before the full rip-off would be nice) or the HUD scandal - The way our government dealt with Drug Dealers in Panama. Now that Drugs are ruining our nation we point the finger at Colombia (even travel to Colombia at danger & expense) at Panama & then learn it is our large corporations that furnish the Drug Dealers with the chemicals that make it possible to make Cocaine X

If our journalists are worth their salt why don't they investigate a story to the beginning & Not just Circle the one known fact like a bunch

of Vultures, Repeating over & over & over  
one known fact.

Perhaps if all of them didn't  
gather over one figure - like hundreds  
of reporters gathering around Donald  
Trump or Ivanka Trump every time  
they appear - or Gary Hart (neither  
one is ~~not~~ of the value of world  
war III) I'm sure Bar 4 could  
gather anything of value & let the  
other 85 Investigate something important  
to the American people, what is gained  
will be repeated on every newscast  
for at least a week five or six times  
a day with really nothing of importance  
gained.

There is a place for the Media  
in our National Life but the Journalists  
are not filling it very few are dedicated  
or professional.

If their goal could be - what will  
help America? not what will help me?
