

Brun - I have no problems with 11/8/94
attempts to present diversity of views depict-
ing various political and social realities
even honestly. I personally appreciate
the many times you have presented
events featuring African American
forums and personalities including
I mean Farrakhan of the Nation of Islam,
Jesse Jackson of the Rainbow Coalition, Dr
Ben Chavis of the NAACP and Associate Jus-
tice Thurgood Marshall, also included have
been conversations of black lawyers, medi-
cal practitioners & ministers, meetings
held by the NAACP, Congressional Black Coun-
cil, black women's political groups and
on and on.

The beauty of showing this level of
black American experience and activity
to the American people is that these
positive images, may it is hoped, help
to erase the degrading stereotypes
harboring in the minds of many white
(over)

Americans; stereotyping that America has
imposed around the world to the psychic
detrimment of black Americans

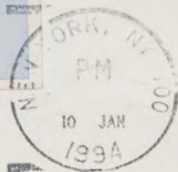

The regular showing of these kind of
events on C-Span I view as propaganda
propaganda to help America overcome
the problem of the color line.
