Dearest C-SPAN,

Its late thursday, August 30th and I happen to check my C-SPAN channel and watched the program you allowed to air by "NORMI" - thank-god you guys have the "balls" to give opposing views a legitimate forum. I swear, your net-work is possibly the last thread of hope for us John Q Citizens left out here in the wasteland of controlled spoon fed dribble of the other net works! If it wasn't for your fine gutsy coverage I'd only be left with channels filled with soap operas, game shows, sports, pro-wrestling - its a crying shame!

If it wasn't for the educational channel, the discovery channel and your two channels I'd chunk my TV in the trash! Please I'm literally begging you - please dont shy from these controversial shows - a true democracy thrives on a forum where a clash of opposing views ~~is~~^{is} welcomed.
