Brian Lamb
(C-Span) and Sarah Trahern

Dear Brian & Sarah,

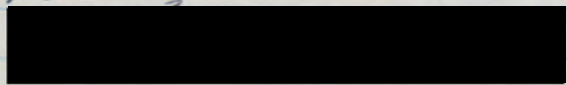

I enjoy C-Span, especially Mondays & Fridays. I have tried to call many times but can never get through. Today a caller brought up the JFK assassination. I doubt the truth will ever be exposed, because the people who could shed some light on the truth have turned up dead just before they were to testify to Congressional Committees. I have read the Warren Report, plus many other books pro & con in the last three years. In 1964 I never believed the Warren Report and still don't.

Just common sense tells one that the "magic bullet" theory is pure nonsense. Oswald's rifle & scope was terrible and probably couldn't hit a red barn. The film shows the president was obviously hit from the front-side with the fatal shot. Most of all, the secret service would never allow the car to turn a corner at 10 M.P.H. without checking the book depository windows and have them all closed or manned with Agents!

We know that Hoover and Johnson hated the Kennedys. We know that the mob had strong links to the S.I.A. and Joe Kennedy Sr., and that they felt double-crossed by the Kennedys. I suggest you read Chuck Diameano's book 'Double Cross'. It makes a lot of sense to me, and you never hear anything about it. As I say, the truth will never be known or accepted because the cover-up was too high up and STILL IS. I will read Posner's book on Case Closed as soon as I can get it, but I doubt it will change my mind because of common sense, and facts. Oswald was a fall guy, (the perfect one).

Sirhan was a fall guy for the R.F.K. killer. He was killed from behind at close range. Another cover up.

Anyway, keep up the good work trying to bring some truth and real facts to the people. We need to know more about NAFTA and I wish you would have a lot of information on the Federal Reserve ^{& Treasury Dept.} ~~and~~ ^{& Treasury Dept.} where that interest money goes and to whom. I guarantee you can't find out anything. Thanks,
