Dear Susan,

I thank you and all of C-SPAN for being. I hear more truth and honesty on C-SPAN than any where else.

It was on C-SPAN that I really learned about the Libertarian Party. And I became a member. When a caller this morning stated that he could remember when he became a libertarian I realized that I could too, for it was while watching your coverage of the Libertarian nominating convention. There was little coverage in the local media. I heard truly caring people and it was a joy to my ears.

I've watched Clinton's journey to the Whitehouse and I have learned that we really do not need a Governor. He's been out of the state more than in it. The Lt. Governor does fine in his absence and the state could save much money and accomplish more by canceling the position of Governor and all its trappings, the mansion etc. One of your callers this AM was from Arkansas and he spoke the truth. Clinton has really done nothing

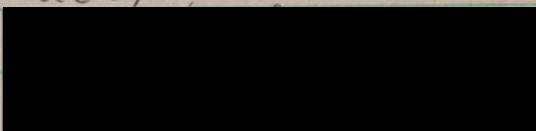

for the state.

I really want to know more, much more about the Trilateral Commission, Clinton is a member, and the Bilderbergers, Clinton attends the Bilderberger meetings. He stated on TV here on labor day that he attended their meeting last summer. Recently there was a caller on C-SPAN who asked the representative who was on CSPAN ~~and he~~ about those 2 groups and his answer was very vague. As if he really didn't know or chose not to talk about it.

I feel that this is information the citizens should know.

Thank you Susan and all C-SPAN

Peace,

Little Rock AR 72207
