

HOMOSEXUAL BEHAVIOR NOT A CIVIL RIGHT BUT CIVIL DISOBEDIENCE.

1993

The bill HR 423 is attempting to draw from the Constitution of the United States of America a right that does not exist.

The Constitution of the United States of America states that the people are endowed by their Creator with certain inalienable rights.

By proclamation of the Constitution of the United States of America the Creator God is the endower of the Constitutional inalienable rights to the people. Therefore the source of the endowment is the legal Supreme Authority over the government.

This form of government is totally opposite from the government that permits man (kind) to have sovereign rule over man(kind).

At the birth of the United States of America, the nation was blessed with the Honorable Presence of the Creator God in the form of the Holy Bible. The Holy Bible is the written embodiment of Creator God. The Holy Bible was written by the nation Israel whom Creator God created to be his written and continual living, never to be voided, witness to the nations of the earth concerning his inalienable rights to all people, of all nations, for all generations; those rights being the right to life, liberty and the pursuit of happiness.

At the birth of the nation Israel, (approximately 4,000 years ago) Creator God stated to Abraham, the father of the nation Israel, that the foundation of the nation Israel was laid upon the required teaching that all the people of the nation be taught to know righteousness and to do justice.

As soon as the proclamation had been established into law concerning righteousness and justice, Creator God directed Abraham to focus his attention on the homosexual cities of Sodom and Gomorrah. God told Abraham that a great cry had come up to him against those cities and that their sin was very g r a v e.

Creator God sent two men (angels) to Sodom to warn Abraham's nephew, Lot, and his family to leave Sodom because he, God, was going to destroy those cities. That night while the two men were in Lot's house, the men of the city, base fellows, to the very last man surrounded Lot's house and demanded that Lot's visitors be sent out to them that they might know them. Lot went out of his house and begged the men not to act so wickedly, but the men of the city refused and pressed hard against Lot until the two men(angels) struck the men of the city with blindness.

As soon as Lot and his family got out of the city, Creator God rained down fire and brimstone on Sodom and Gomorrah. Since that time, (approximately 4,000 years ago) the destruction of Sodom and Gomorrah have served as an example and a warning concerning God's anger and wrath against homosexual behavior. Homosexual behavior is not a civil right but a civil disobedience. Homosexuality is the major destroyer of Civil- i- zation.

Focus two on homosexuality; The Law against homosexual behavior was officially put into law when Creator God told Moses, (approximately 1,250 B.C.) who had been taught all the wisdom of the Egyptians and was mighty in words and deeds, to write the words of the law in the Book of the Covenant between God and the people of Israel. The law stated that if a man lies with a male as with a woman, both of them shall be put to death. Leviticus 20:13
The Levitical priest were required to read the law to the people; men, women and children every seven years.

Focus three on homosexuality: The Homosexuals and the Levite's concubine.

Judges 19:16-30. A traveling Levite and his concubine stopped for the night at a place in the territory of the land of Benjamin of Israel. They were invited to spend the night in the home of an Ephraimite. That night the homosexuals of the place surrounded the man's house and demanded that the Levite be sent out to them. The man asked them not to act so wickedly against his guest. The men pressed hard against the man's house and the Levite took his concubine and put her out to them. They abused her all night and before daybreak they let her go. She returned to the house where her master was staying and died at the door with her hand on the threshold. When the Levite went out the house to go on his way he found his concubine lying there dead.

Focus four on homosexuality: When the nation Israel had grown into a powerful and prosperous nation, she turned to the wicked ways of the cities of Sodom and Gomorrah. After repeated refusals to change her ways, Creator God had no other alternative but to destroy his Holy City that had become so unholy. The destruction of the nation Israel and the city Jerusalem approximately 560 B.C. Jeremiah 23:14-16

Focus five on homosexuality: The famous Jewish writer of the New Testament confirms that homosexuality continues to carry with it the curse written in the Book of the Covenant between God and the people of Israel. Paul writes that God gave them up to dishonorable passions. That their women exchanged natural relations for unnatural and the men likewise gave up natural relations with women and were consumed with passion for one another, men committing shameless acts with men and receiving in their own persons the due penalty for their error. Romans 1:26-27.

The Constitution of the United States of America has given her people the freedom to worship the Creator God of the Holy Bible. The government has accepted the responsibility of teaching her people to read and write so that they can learn for themselves about the Creator God. The government has given her people the right to choose to obey or disobey the teaching of the Holy Bible. This places the full responsibility on the individual to choose his or her own fate. At the time of accountability, the day of judgment, the law will yield the individual the reward of one's own choices. If there is condemnation it will be not of the Creator's doing, but of the individuals own personal choice.

The bill HR 423, if passed, would be the most debasing act the nation has ever known. The bill HR423 is not a bill for the United States of America. It is a bill against the security of the nation and it is the archenemy!
