Dear Mr. Murphy:

Have you heard about the Natural Law Party? One L.A. Times reporter, on seeing the Natural Law Party's Presidential candidate, Dr. John Hagelin, on C-SPAN commented, "although I'm not cynical I am skeptical, but when I saw his face, he passed all the tests." It's time the media give equal coverage to this newest and fastest growing political party, with ballot access now in 28 states, approaching 40 states by the November election.

Media exposure is a major criterion upon which entrance to the presidential debates is granted, yet the purpose of the debates is to inform and educate the electorate about the candidates and their positions. In a second appearance on C-SPAN, callers thanked C-SPAN for having another, 3rd party candidate. The exclusive 2-party media coverage of the presidential debates is unfair to the democratic process of free choice. Dr. John Hagelin, Harvard-trained quantum physicist, who has practical, proven solutions to the nation's problems should be included in the presidential debates.

We would like to ask you to personally send a direct request to the Commission on Presidential Debates to include Dr. John Hagelin in the debates. Please send your request to:

Frank J. Fahrenkopf, Jr., and
Paul G. Kirk, Jr., Co-Chairmen

Will you give your official support to Dr. John Hagelin being included in the presidential debates--yes or no? We anxiously await your reply. If we do not hear from you, we will assume that you do support this position.

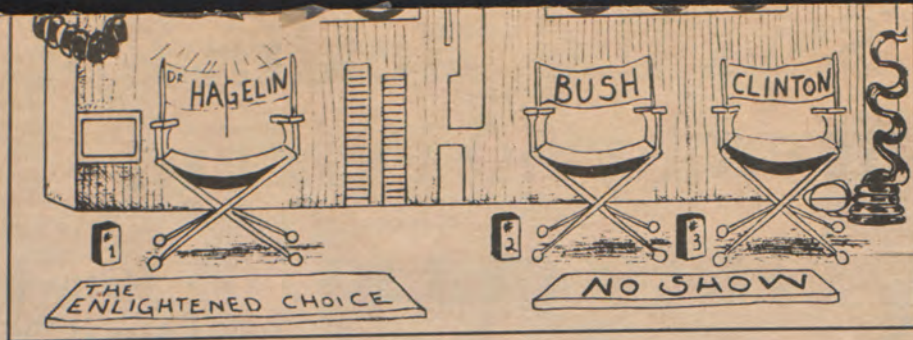

Sincerely yours,

Dr. Hagelin Says U.S. Health Bill Can Be Reduced by 50 Percent

"The Natural Law Party is the only political party offering 'health care for all' while providing a net cost savings for the nation," Hagelin said.
