

Would you care to plan a
program explaining how
the states can get bills
passed on the floor of the
house? $\frac{2}{3}$ vote? $\frac{3}{4}$ vote?

C-Span follows the crowd.?

Whatever happened to the Governor's Conference.? Thought you were planning a follow up on all the hard work that took place in Seattle last weekend!

Our Governor's were standing tall! They deserve our praise. The only straight talk I've heard lately was coming from these people. They are thinking "people" where our Executive Branch of government is thinking "power".

It may take the Governors to solve the "National Runaway Debt", so let's give them credit, and urge them (encourage them) to find the answers.

We must not let our proud nation become second class.
