Dear Sirs

On Nov. 3rd you had on T.V. an interview of a Mr. Burns before The National press Club; relative to his work, a fine job, in putting together the fine story on "The Civil War". We need more such American history so our kids know more of what sacrifice it took to make & hold the USA they take for granted. We need vigilance right now & some of our own gov! (almost blind - hence this pen)

Please could I get a cassette tape of that interview of Mr. Burns before the National Press Club Nov. 3rd. Because of my eyes I need it.

Could some one put that on an ordinary cassette? Thank you.
