ATTN: Program Director
Station Manager

Dear Sir:

While this letter is belated, I want to thank you for carrying the proceeding of the United We Stand America on Feb. 4-6.

One doesn't have to be political to recognize what is happening to our country. For or against Perot, we must thank him for awakening the people to what is going on.

Thanks to un-biased stations as yours that important information is disseminated to the public. The CEO's of the other major networks are members of the 'secret societies' and won't let air information that could delay, hopefully prevent, implementation of the 'new rules'.

We appreciate you and your endeavors. More people do than will take the time to correspond with you. Many people feel threatened by writing to you; many of us do not. Keep up the good work of informing the American people about what is happening or about to happen to them.

Very truly yours,
