Dear Mr. Lamb:

Thank you for your support of the Close Up program. Your contributions made it possible for several students and one teacher from [REDACTED] to have a truly educational experience.

Our week in Washington, D.C. was cut short by two days due to the "big snow." Our delayed departure caused some real shifting of activities in the program, but the Close Up team did an excellent job in providing the students with information, interaction and learning.

Below are a few expressions of students who went to Washington, D.C. March 16-20, 1993.

Going to Washington with Close-Up was a great experience! They took us everywhere, and we really learned much about the government. We also learned to speak out and to follow what happens in the world. Last, but not least, we also had a lot of fun! [REDACTED]

The trip to Washington, D.C. that we took with the Close-Up Program in March was a very educational experience. We not only were able to explore the city in depth, but we learned more and more about our country and the way our government works. Our instructors led us in discussions that led to debates on all sides of every issue. We were asked not only to state our opinion, but to stand behind it and back it up. In addition to all of that, we made new friends from across the country. In all, we had an awesome and eventful time. [REDACTED]

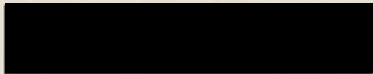

My week in Washington, D.C. was very informative and gave me an insightful view of our government and economy and how it works. I was able to see all the interesting sights in Washington, D.C. while learning at the same time. I had the opportunity to meet students from walks of life very diverse from mine, and I really enjoyed the people I met. My counselors were very helpful in making sure I got the most out of my week that I possibly could, and that I saw all the sights I really was looking forward to seeing. I greatly appreciate the whole Close-Up staff, they took a bad situation (shortened by the storm) and made it work for me. [REDACTED]

You can take pride in supporting a program that truly aids in the making of good citizens. It is only through financial support from people such as you that the Close Up foundation and students at participating schools have such an enlightening, instructive, and fun growth experience.

Thank you again for your support!

Sincerely,
[REDACTED]
