

January 13, 1992

PLEASE do everything possible to continue the Soviet Evening News broadcast. It definitely is history in the ~~making~~, (besides pointing up the glaring deficiency of our own evening news.) In watching the difficulties to change from socialism to capitalism just might convince voters to rid our Congress of the Liberals that are taking our country down that same socialist "Big Brother" road to ruin!

Was disappointed to see all that wasted space devoted to the Programming Chart. Keep the Program Highlights daily schedule, and give us back the call-in guest list. Thank you.
