Israel has proved they
do not deserve our support
they are and always ~~have~~
been Terrorists and War.
Mongers!

Israel deliberately bombed the
S.S. Liberty and called it a
mistake.

Israel sent Jay Pollard to spy
on the U.S. and called it a rogue
operation.

Israel murders the Palestinians
and calls it restraint. How
much more should we tolerate?
America First

We, the people, want U.S. to come first

We the people are so tired of listening to those who need more money to run the cities, towns and all the countries in Europe.

We can hardly take care of our own here, so the underdogs are bled to the bone because of bigwigs showing how great they are by using us to pay for the promises and money that is loaned to other countries.

We have taxes, surtaxes, surcharge taxes and now a new one, atonement tax, that someone just dreamed up. We don't have to atone for anyone but ourselves. Yet, nothing is accounted for by these bigwigs to show to whom and where the money goes.

We, the people, would like to know, as we are not all illiterate and stupid. We are never too old to learn, nor too

lazy to accomplish more.

We, the people, don't mind sharing as much as we have for the needy, the poor and the sick.

It's got to the point of disgust ... there won't be much to give to anyone at the rate things are going.

We hope and wish for the best for the future, but the way it looks now, it's a fleeting rainbow without a pot of gold for anyone.

We know we have to do better and not give up because all good comes to those who do good and wait ... as patience is a virtue. Also, freedom and independence for ourselves is great, as long as we can keep it here in the United States.
