Too bad you were unable to stop motor mouth Julianne Malveaux! I'd love to write her but since you must address now I do not know where to write her.

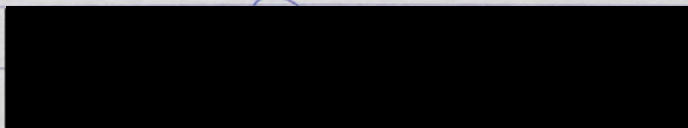

She said "Whites were not discriminated against" Well, I beg to differ:

My son with a college degree from Penn State applied for a bank position. In the running was a white woman and a black woman. The white woman had a college degree also. The black woman a high school degree. My son was told "We need a woman, and a black because of quotas therefore the black woman with just a high school education was given the job."

Is not this discrimination against whites?

(S.W.)

I wish you would forward this
to "Motor month"! Heres a stamp
to send it on. Thank You.
