

We enjoyed your programs
more - before you expanded
your coverage. You are like
our "budget" - spread so thin -
it's hard to fund anything well.

The 1988 campaign coverage
was great. The round table dis-
cussions are always good. The
personal interviews of our elected
representatives, business and
financial people are excellent.
We really need education, but
preferably in the areas that we
can relate to. How do we en-
courage people to vote? How
do we get honesty in government -
accounting - budgeting? Some-
one still has to answer the basics
- food, clothing & a roof -

So, thanks for C-Span!

You may never top what I
call "The British Spectacular", the
exception to just what I've been
saying.

Respectfully,
