Please give credit/^{where credit} should be given. Remember
What we see is what we all get back. To change,
More than money is needed. Faith examples for
imitation can be flattering but... Who needs The
Crime? Who needs the cruelty? Who needs More Pictures
To emphasize the Broken system? Enough is enough. TV could
should & is the most Powerful tool as are the machines replacing
Human beings. It is Imperative to Give Hope To the People.
We must work in eradicating hate, Prejudice, Veerdictiveness.
To also work in Values.

To protect myself but more my family & friends, This was precipitated by the events starting by Mr. Nixon's Death. In memory of a man, he tried his utmost, Mr. Richard Nixon.

Men cry in many other countries! Foreign Affairs would be more than welcome. Geography is not a subject taught in U.S.A. as in other countries. Incredible but there is more Tolerance & Acceptance in other countries. Give me freedom, my "alive spirit" makes me give you some Feed back. Depression can Kill more than any illness. Not accepted because Known as Melancholia, it is like Allergies. Your reporting, your input can help to have Optimism.

There are few things we must never forget:

{	Those	who	can	teach	✓	<u>Lead</u>
	Those	"	"	Write	✓	Inspire
	"	"	"	Act		Entertain
	"	"	"	Paint		Splash colors
	"	"	"	Draw	{	Build satire show black & white
	"	"	"	Cook	{	Win friend a conquer enemies
	"	"	"	Dance	{	need not to be on a diet
	"	"	"	Sing		make hearts feel.
"	"	"	Love		Is a many splendor thing?	

Imitations & role models vary. Love in MY ERA was not expressed openly. It is now & still is for me an intimated expression. We have changed & at times we seem to enjoy not to Elevate to the highest denominator, we thrive to bring the masses to the lower denominator.

To be rich is not only Materialistic. So many poor are extremely wealthy in spirit, sharing, giving. To give oneself is more valuable than send packages or gifts. A Kiss is Just a Kiss. Who needs to be spanked or caned? ^{Learned} If values, respect, responsibility, Know right from Wrong? It's Time we listen & imitate The Goodness, values of others if we can save what others sooo hard, diligently, Loyalty frugally Built.

I dare write... even if it my thoughts are opposite & show the subjective manner in which - we all judge. Is this History?

Re: Mr Nixon - Q.E.P.D.

I'm a woman, a foreign country gave
me my first light ^{to} this world! The past is
gone, tomorrow may never come. "The here
now" makes me "NEVER to give up"! We
may regret to fail if we never try, but
success is many things. Oh! How sad this
last year ~~it~~ I have been, not only for me, but
for thousands of people through out the world.

TV has replaced - reading - but also the
^{etc. etc. etc.}
Companionship, the Camaraderie, the sharing
and even discussing opposite points of view.
Most people work, look at our status Quo!

It was 6 yrs ago That my Dear Aunt died. She was extremely involved in politics, she did her part representing the Senior Citizens of her County. She was a conservative & very much against Communism.

Remember why Mr. Goldwater lost his election? In many cases "we" particularly women from foreign Countries of my ERA were taught to never speak about ^{publicly} "Politics, Sex or Religion" As a Child I only knew one President (He may have been called a Dictator & was put in exile. Yet many people of my ERA bless him for ^{our} Education, Pride in Country, Respect,

Love for Beauty, Patriotism, Cleanliness.

We had Security out in streets, no beggars,

no drunks, the line could be too long to enume-

rate. He died abroad, was disposed of all his

property. By now the young have been brainwashed

his works even Edifices, Fountains, ^{destroyed} ~~Has~~ ^{HE} been

Forgotten. Credit has been given to "Successors" who

have ~~x~~ changed that Small Nation, "La ~~Tercera~~ de

Oro," into more than 30 yrs of chaos, crisis,

~~and~~ those who can ^{to freedom} ESCAPE, even lose their

Lives. ^{to do so} An isolated Case? An isolated Nation?

I came ^{to USA} in the late or middle 40's to

(USA.) Naive, ignorant, in need of a second chance.

Like many foreigners without the
Language, ^{but} with dreams, braves, support
my life has not ^{been} a Bed of Roses, nor
has it all been neither all failures nor all
successes. We ^{Man of us} have claimed small mountains, we
have slipped to precipices. ^{So} Should we stay
put? Or should we "try" to Pick Up the pieces
and continue... perhaps not in the same
Company, perhaps not in the same Arena,
but - Try, Try, Try to keep on going even
at different pace.... until Our work is finish
and we are call by our Lord. Oh if the
Enemies must win, let them be judged by our Lord.

1967/70-~~71~~⁷² I was at an "old age" woman

returning to school, as a change, forced
by factors beyond & above my desire. I was
present with much younger students [&] for the
first time experienced, Prejudice, Hate, Discrimi-
nation. Since then I also have felt it all!

Yes. Appalled was I, to face the feeling
of Blacks, The Killing of Dr. M King ^{etc etc}. Later the
unhappiness of students about the Vietnam
war. Oh it was indeed a yearful, unbelievable
Time! At one point students were ready to
burn the library. Coming from the other end of
the spectrum, ignorant of the so. I finally got more ill.

"To Err is human, To forgive" as hard
as it may be, poor taste, showed, due to our freedom.

I looked at some woman Mrs. Schroder, Susst
From Channel 9 KQED described the horror of a

man, who must wonder why? why? did sooo

many people hated him. How about the blunders of

other people who are adored, revered, and with

money + charisma erase, cover up and are still in

Power? "We are Hell, but Politics are worse"!

It is my believe that Pressure, Expectations
and Perfection at times are not virtues, but

Can drive many people to help & save as

many lives as they can. Or be incriminated, lost.

To say That Mr. Nixon was not sorry
or he did not admit his mistakes, as
said by many people, is to be somewhat
VENdictive Hateful & Angry. He was
destroyed, he cried on his farewell
speech, & yes he resigned to help the
Nation & more people involved ^{into} Humiliation.

What do they want these people? To see a
Representative of the One of the Great Nations
to Knedle-down, & say it is all Mia Culpa
Mia Culpa..? Cruel, some people can be! Ask not
Why we have the "State of Affairs" but see yoursel-
ves in the Mirror, Hate is pass on, Prejudice is Learned
Anger is the side Effects of Injustice

The Mr. Nixon was, ^{an} ordinary man, who in silence for many years focus Not ~~to~~ hurt others, or hate others, but to have Peace & Freedom in USA. Let not only the "balance" speak but his acts. He had one wife, wrote 10 Books himself. He wrote his own speeches, open the door to China, Russia, and even if it was not over night, ^{war in} Vietnam ended.

His daughters are role models for they have never blabber mouthed, nor did they were in the Lime Light or scandals. His grand-children only seen ^{once} by many of us, Acted extremely proper. Yes as Time

Magazine said He faced death, but ^{with} thumb up & smiling. _{He could not digest} He kept his secrets.

Do not Ask Why schools do not work,
for Teachers are not 100% to blame. It's
The home, parents, environment that does
help. USA is the most Complex Nation on
Earth. It is an enigma how "we the people"
still are at the end, for the most part, more
United. ^{USA is an} Extremely Cosmopolitan, young nation,
aware, involved, evolving - Free - . If we
give up, if we no longer become active +
"Have a goal" our spirit will die". A civilized
society endures, grows if we not only have
Laws but respect Abide them. At this
Time not only USA is confronting Adversity.
