C - Span,

May I please make a suggestion as to some programing I would like to see fill up some air time during the August Congressional recess?

I would enjoy it very much if you could go back to the beginning of President Bush's administration and show the House in session at that time. It would be very interesting and educational to refresh our memories as to the problems we were facing then, compared to now.

I really enjoyed the inaugural addresses of past Presidents that you had on early in the year, and know this would be wonderful.

Thank you.

Sincerely,

Vermilion, OH 44089
