

Dear Mr. LAMB,

SUN, 5 NOV 95, TULSA

Perhaps your coverage of SPEAKERS has improved, but your "CAMERA-AIMERS" Need a desk more instruction in switching focus in discussions & Hearings, especially to include chants that a speaker is referring to. I know you can't control everything (compositionally & technically), especially "remotes", you choose from, But you've the power, now, to influence the quality of submitted 'Tapes'. Take the 'Opener' on Front as a sincere tribute to what you all are doing well.

On the other hand, Have you MISSED OR, I should say 'Downplayed' AN EXCITING & SEMINAL EVENT - when "MR. NEWT" CHALLENGED THE 'BLACK CAUCUS, ON THE FLOOR - IN FULL VIEW - TO SUPPORT DC Education For poverty-Line Kids??"
