Dear C-Span -

I have been listening to your Round Table this morning - only I must have the wrong idea of a round table. These people are all except one on one side. Even Brian Lamb was not impartial. Is That a round table?

And now people refer to Mrs Clinton, Hillary Clinton, as just plain Hillary. I can't stand to watch so much of this so I realize why I don't listen to the Round Table often any more. We don't hear as much of issues as personalities and suspicions and rumors. Kind of sad,

Sincerely,
