

12-5-93

Mr. Kramer,

Why don't you shut up about Aids and remember that That Carter was also one of the do-nothing Presidents who dealt with Aids.

Get a job or a life where your arrogance can be put to use in a laboratory, or volunteer to inject yourself with Aids cancer of the prostate and Lung cancer and try to cure them not just talk about all the people who died from Aids. a lot of other people like my relatives have died of Brain, Uterine, Lung, Colon Cancer.

I don't care if you read this or not
