Dear Sir;

I wish to register a complaint to the proper C-Span officials regarding the pornographic filth that was (inadvertently, on my part,) televised into my living room at 7.40 this Saturday evening, May 22nd, 1993. It was called "Accuracy in the Media." I called it, and still call it, bigotry, hate; and rumor mongering. I am a responsible adult who has been around a little, (53 years) and I have never heard such filth in my life!

Yes, you had a disclaimer on the screen but, it wasn't enough. I watched it until I saw and heard what it was and, I shut it off! I have only two stations on my remote that are keyed in as favorite channels, and those two channels are C-Span 1 and C-Span Two. It was quite an unpleasant surprise!

I feel sorry for people who have little children who watch T.V. at this early an hour in the evening. I also feel sorry for the little kids. Parents shouldn't have to block out C-Span 1 and 2 in order to protect their children's innocence. Innocence is a very short time in our long lives, and I feel it should be protected as long as is natural. Also, I feel all people should be able to watch C-Span 1 and 2. It is our great democracy in action!

I hope you wouldn't allow the K.K.K., Skin Heads, or Neo Nazis to expound their sick and dangerous views against any one who isn't "Tall, White, and Aryan," and I am "Tall, White" and, despite the French last name, "Aryan," on Television! So, please give fellow human beings like Homosexuals a chance to live their own lives without dirty mouthed sick-o's like them using the airwaves, that I'm paying to connect into, to vomit up their poisonous hate inciting bigotry and filth! Because of incidents like these there are far too many Gay Bashing-Killings going on now!

Sincerely Yours

c.c.
