O. implic

Dear Sirs:

I Listened to your program it very ~~interesting~~ good and I really didn't talk enough about Clinton and his gang of LIARS and Co-conspirators up to Vice president and first Lady.

I can prove that on T.V. He said that all of tobacco should be kept away from teenagers:

The only next time I saw him talking about (weed and grass) and he smoked them in the time he was in England and enjoyed it best when he ~~inhalated~~ inhaled it deeply. What kind of man or his cronies would support him including

(2)
The Vice President who
is in line for next one to
run for President. I
think all of his men
and women who indorse
him don't care what
kind of man he is but they
follow along like puppy
dogs. I think that is
a damn shame when people
can't give their God given
brains to figure what
kind of world will this
will be when a group like
this is heading a nation.
I think this is a false
economy when thousands
of men and women are
being layed off like I.B.M.
auto companies etc. when
a minimum wage ~~are~~ when
but people has to work 2
jobs both husband and wife
and sometimes kids to have
~~necessaries~~ necessities little luxuries.

(3)

I can't see where ~~leave turned~~ intelligent men and women "can't see through the smoke to get to the fire" I pray for my children and great niece and nephews to get a world of peace where men won't kill each other. I ~~how~~ know ~~my~~ right now man has to fight against evil just to survive and to have a better world for our children of tomorrow. I also think that we could get more and some other things out but we spent too much money on this whole thing and if congress would get rid of him and cronies when they speak up the U.S.A. would be better off if using logic and feeling it right too.

(4)

I know that I pray that we would get back on track toward a more decent world. I know that the U.S. is being run by small amount of men and women & lobbies which follow their interest. Where in the constitution is supposed to be a way of govt. I thought it was "of the people" for the people "and by the people" and the bill of rights etc. I pity America if they don't do like present Theodore "Speak softly and carry a big stick" You realize that 40 percent of airline parts and accompanying things of armaments are going down drain and all of services are being undermined when U.S. has to be strong to survive economically, domestic & foreign ^{affairs} ~~affairs~~
