Sir,

In regards to your appearance on the C-SPAN network on April 26, I have a few comments.

Your obvious hate for Richard M. Nixon was no surprise to me due to your vendetta for the past twenty or so years and I have no quarrel there. What does enrage me is your complete disregard for the dead and for the family of Mr Nixon.

You lost all sense of decency and set yourself up as the "mouth piece" for all the indecent "screwballs" in our country!

Your actions on C-SPAN were as low as I have seen on public television!

You disqualified yourself to be called a journalist and you went to far in your actions against a prior President of our country.

It is a disgrace that "scum bags" like you are allowed to spit out your nazi style venom against anyone much less our thirty-seventh president! Again as I said, freedom of the press and freedom of speech is part of our democracy but that has a limit, a time & a place for you to exercise those rights! Not against a dead man on Public Television!

I am a Combat Veteran of Viet Nam and I put my life on the line for over three years for my country and to have to watch a man such as you so possessed with his hate for one of the greatest presidents of our century is something I for one will not let pass!

I intend to protest to C-SPAN and to anyone else who would accept anything you write! You are in no way a journalist and that disguise will not cover your filthy comments again!

If you ever travel down in this part of our great country, I hope and pray that I get to face you.

Go to Hell.
