

February 1, 1993

Mr. Brian Lamb,

I would like to say thank you very much for working with and supporting the Close Up programs. It was an extremely educational trip in which I feel I learned more about our government than I could in a year of school. Being able to meet with senators and representatives and seeing the way Congress really works is an experience I will never forget. I hope you continue to work with Close Up because it is a program I feel every student should have the opportunity to experience. There is no better way to understand our country than to see where it all happens.

With Sincere Thanks,

Seattle, WA
