

Fri. a.m. 10/15/93

Dear Mr. Lamb,

SHAFTSBURY VT 05262

On today's Journalist's Roundtable show (10/15/93) you seemed surprised you received a number of calls concerning Waco-gate. If you watched your OWN C-SPAN the previous Friday evening or the following morning, C-SPAN had the 90-minute Waco, FBI news-conference.

The topic of the (Linda Thompson) tape came up and the reporter who asked the FBI spokesperson the question about it was given nothing but the usual BS in return.

If you, Mr. Lamb, REALLY are NOT part of the coverup, and REALLY want to see the 30-minute or so "Thompson" tape the reporter asked about, you can call Ms. Thompson at [REDACTED] If you just want the tape, you can call [REDACTED]

I saw the tape more than 6 weeks ago when I was in Connecticut, on cable TV channel 23, the public access channel, in Danbury, Connecticut. I was so shocked at what I saw, I called the TV company to find out how I could buy a tape. The above ^{telephonic} numbers are what I was given and they are still current.

If C-SPAN is too cheap to ~~xxxx~~ spend \$20 for the tape, I will send you my tape for FREE. Write me: [REDACTED] Shaftsbury, VT 05262-0492 or call me at [REDACTED]. I have no connection with anything other than I am 43 and I have never been anything but a law-abiding citizen who saw the tape and was SHOCKED at what I saw. You will be too.

Furthermore, you have a love for books and knowlege like I have. I knew nothing about CS gas until I heard about it in connection with WACO. I looked through feference books at the library (Dangerous Properties of Industrial Materials and another ref. book entitled Tear Gas Munitions). Do you know that CS gas - when burned - converts to CYANIDE? The next time you are at a library, check through reference books such as I just mentioned and decide for YOURSELF. That is obviously what the oler-sounding caller today of your call-in show was trying to tell YOU!

Respectfully,

PS: I'm the [REDACTED] who has sent ^(you) several humorous ^{PICTURE} POST-CARDS FROM VT. LATELY
