Gentlepersonages:

This is sort of a "Red Letter Day" and I figured I might write a short note to both of you!

First, I do appreciate C-Span very, very much! An "elderly person" who hasn't much else to look forward to, I do enjoy a review of what you, the "active generations" are up to. It's sort of a hobby!

I have something of a problem with recent broadcasts of "Russian TV," specifically two broadcasts which are both dated 8/19/93 by C-Span. I don't know just how I got two (2) VCR tapes of what supposedly was the same program, but when I reviewed my recordings I discovered that the two broadcasts dated 8/19/93 were very different! I was so confused that I literally had to "play back both" to verify that I wasn't going crazier than I really am. I still can't believe that C-Span would have actually broadcasts two different programs which differed so much!

Perhaps someone in Moscow or Washington DC could let me in on the secret to what appears a "mystery" to an old fool like me!

Thanking you both in advance, I am
[REDACTED]

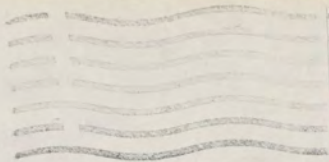

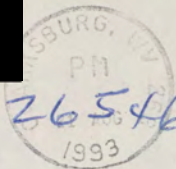

PS: I'm something of a Ballet Nut, and wondered if there was any way to purchase VCR Ballet Tapes directly from Russia instead of through our own distribution networks. If so, I'd appreciate a listing and advice as to just how to purchase such!

In this connection I would also like to complement C-Span on it's "musical breaks." They are unusual here in the United States. I don't envy the lady who has to translate the broadcasts from Russian!!
